

Progress Report Form IISMA 2024

This progress report describes your experience, problems, challenges, and issues you may have in the first three months of your study abroad. This report will be used for administrative purposes at IISMA and DGHE. Please complete the form accordingly.

Report Period	Academic Year	Period
	2024/2025	First Quarter

PART A

To be completed by the student

Name	: Michel Anugrha Agung Palar
Host University	: University of Information Technology and Management, Rzeszow
Home University	: Politeknik Negeri Manado
Advisor (e.g., head of international office or other lecturers from your home university)	: Dr Mita Erdiaty Takaendengan, SS., MTourism

1. Outline below your progress and achievements over the last 3 months. Indicate what milestones have been achieved.

Over the past three months, I have made significant progress and achieved important milestones as an IISMA awardee. I successfully built strong relationships with fellow awardees and international students, enhancing my networking skills and fostering cultural exchange. Additionally, I acquired valuable new skills, including creating a simple game from scratch and designing graphic assets. I gained proficiency in using game engines, modeling software like Blender, and design platforms such as Figma. A highlight of my experience was organizing a cultural challenge where I introduced batik to local and international students at UITM Rzeszow, Poland, while also sharing traditional Indonesian cuisine. This initiative not only promoted cultural appreciation but also solidified my relationships with peers. Overall, these experiences have contributed to my personal growth and professional development, setting a strong foundation for my future endeavors.

2. What is your plan for the rest of the program?

For the remainder of the IISMA program, I plan to focus on several key objectives to maximize my experience. First, I aim to build friendships with local citizens to enhance my cultural understanding and create lasting connections. Additionally, I will prioritize networking opportunities with peers and professionals to broaden my horizons and explore potential collaborations. Academically, my goal is to excel in all my classes, striving for high grades to ensure a solid academic record. I also intend to actively participate in extracurricular activities, which will allow me to engage with the community and develop new skills. Finally, I aim to introduce Indonesia further by sharing our rich culture, traditions, and cuisine through events and discussions, fostering a greater appreciation and understanding among my peers. This multifaceted approach will help me make the most of my time abroad.

3. What kind of extracurricular activities are you participating?

I haven't participated in any extracurricular activities yet, but I plan to join a sports class in the near future. I need a bit more time to gather information about the available options. Additionally, I'm considering joining the Multicultural Academic Circle at UITM Rzeszow, Poland, to engage with diverse perspectives and enhance my cultural experience.

4. Have you identified any health and safety issues during the past 3 months?

No

I am pleased to report that I have had no health issues over the past three months and feel perfectly fine. Both my physical and mental health are in great shape, allowing me to fully engage in my studies and activities during this time.

5. Are there any issues that IISMA and DGHE should be aware of?

No

At this time, I do not believe I have encountered any issues that the IISMA program or DGHE should be aware of. My experience has been positive, and I feel supported in my academic and personal endeavors. Everything is proceeding smoothly, allowing me to focus on my goals and make the most of this opportunity.

Through the submission of this document, I hereby affirm that the attached document is valid and free from any falsifications.

Date: October 22, 2024

PART B

To be completed by the International Office of the Home Institution

1. Are you satisfied with the progress of your student?

Yes
